THE SPECLUATIVE MARKETS.

May, June and July the Leading Wheat Months.

SLIGHT CHANGES IN CORN VALUES

Oats Quiet-The Feeling in Provisions Stronger Than the Trade Expected-Little Change in Cattle-Hogs Lower.

CHICAGO PRODUCE MARKET.

Curcago, Feb. 11 .- [Special Telegram to THE BER. |- Leading features in the market to-day was the strength in May and the manifestation of decided power in June and July. An increasing volume of trade is springing up in July, and the dealings in that delivery to-day were at times nearly as important as in May. The local situation has few bearish features, and the general situation away from here is better. Cables are firm, activity in the flour trade is becoming more marked, and the stocks of wheat continue to melt slowly away. New York, as usual, issued a series of bearish bulletins' but the edge was knocked off that sort of thing later in the day by the reports that ten boat loads had been taken for export-one for Glasgow, five No. 2 red for Leith and four for Lisbon. The receipt of this intelligence caused a pretty little bulge of about le in this market, which developed into a perfect whirlwind during the last half hour of the session. The pace was very rapid. New York parties also wired that Pillsbury was there talking very bullishly and trying to sell flour. The snow storm of yesterday and last night extended very generally over Ohio, Indiana, Michigan and eastern Illinois, but no further west. Colder weather is expected to follow. This storm tended to raise hopes of softer wheat markets, which were not realized, to the chagrin and loss of the local scatters. The market ruled firm and strong up to noon, and the closing prices record a substantial advance as compared with Saturday, May leaving off 214c higher and July 4% higher. There was some trading in May wheat around the opening at \$1.023\(\text{g}\) (\text{@1.03}\(\text{g}\). The market was spiritiess and trade light and local. Presently the market hardened and the price of May slowly dragged up to \$1.03\(\text{g}\). It subsequently worked back to \$1.03\(\text{g}\), up again to \$1.03\(\text{g}\), and settled to \$1.03\(\text{g}\). That proved to be the bottom on the decline, and thereafter the course of values was unward. The advance did not stop July 4 c higher. There was some trading ues was upward. The advance did not stop at \$1.04%, shough there was a slight reaction at that point, but boomed to \$1.05%, and left off at \$1.05%. July wheat opened at 90%c, sold off %c, and suddenly sprang into request, Baxter leading off. From 89%c to 90%c only a few trades were made, and the price rose right up to 91540. It subsequently worked back to 914c, and during the last half hour advanced to 95c, and closed at 94c. The commission houses have been advising their customers for a week to get into July, and to-day the public seemed to realize that there was merit in that delivery. The "straddlers" came to the same conclusion. As may be surmised from the fact that wheat jumped 2@3c the last the fact that wheat jumped 2032 the last hour, that market was violently excited dur-ing that period. A great deal of long wheat came out during the first half of the session before the bulge started, which wheat was absorbed by a few large "scale orders." When the advance commenced the market was found to be bare of any offerings. It had been said that "the shorts were all in,"

last. The "straddlers" were fellows who were caught in July. They were caught the worst way, and did some grand and lofty tumbling. The running up of the price of July to 95c was an astonisher to the crowd. The visible supply of corn, with the di-minished export movement last week, and the increased receipts at the primary markets for the same time, was expected to show a heavy increase, and when 723,000 bushels was announced as the extent of it, an improvement in feeling took place, the opening having been rather weak. The receipts to-day were expected to be again large to-morrow. St. Louis received 161,000 bushels to-day and 635 cars were the estimated receipts for this point were the estimated receipts for this point to morrow. The heavy export clearances from the Atlantic ports on Saturday was slightly reassuring, and the firm tone of cable advices from England also helped to stiffen the market. There was an active demand for May at 35c, but the offerings at that figure were quite limited. The weather was unfavorable to the hardening of the grain, but there appears to be no present grain, but there appears to be no present searcity of No. 2. Wheat was a supporting factor, and the market appeared near the close to require help from some quarter, but was fairly steady in the end. The difference between Saturday's and to-day's closing figures are

but this seems to have been a mistake, judg-ing from the clamor they made towards the

very slight. Onts were quiet, though in the aggregate there was a fair trade at the prices, which were nearly steady as compared with the close of last week. The increase in the visible supply for the week was insignificant, ble supply for the week was insignificant, but the local stocas were larger by 97,365 bushels than at the close of the previous six days. There was no pressure to sell, and May was in fair request around 27@27½c, indicating nearly a steady tone, with June dull at ½c discount and the near months neglected. No. 2 outs to go to store were unchanged with sales at 25c.

In provisions the feeling was a little stronger than the trade evidently expected.

In provisions the feeling was a little stronger than the trade evidently expected. Hogs were in good supply and lower, but the advices from the stock yards exerted apparently but little weight, considerably less than their usual influence. Barring lard, which was offered quite freely, the offerings of product were much smaller than of late. In pork and short ribs the selling, in fact, was conservative, while the demand for both was fairly active, the shorts covering freely. The largest individual buyer of pork was Baldwin. The fluctuations all around covered more than the ordinary range and at short ribs 234c higher than Saturday.

Lard closed at a decline of 234cc.

CHICAGO LIVE STOCK

CHICAGO, Feb. 11 .- | Special Telegram to THE BEE. |- CATTLE-As compared with the close Saturday, there was little or no change. Such stock as suited the dressed beef and shipping trade sold fairly well, in some cases a shade stronger, but in no instance any higher. What one would classify as good steers were not at all plentiful, while on the other hand rather common and medium classes showed up quite plentiful, and there was a large supply of rough, common and butchers' stock, with poor and lean cows soling substantially lower and good cows barely ruling steady. The falling off in the run as compared with last Menday did not seem to have the stimulating effect on prices that was at first anticipated. There was little or nothing going on in the stocker and feeder line: Choice to extra beeves, \$4.25@4.80; medium to good steers, 1350 to 1500 lbs, \$3.75@4.20; 1200 to 1350 lbs, \$3.40@4.00; 950 to 1200 lbs, \$3.00@3.60; stockers and

4.00; 950 to 1200 ibs, \$3.00@3.60; stockers and feeders, \$2.10@3.40; cows, bulls and mixed, \$1.40@3.00; bulls, \$2.10@3.25.

Hoos—Trade was active, with a down turn on nearly all sorts, but especially on big heavy and the ordinary run of packing sorts. Light grades sold about strady. Packing sorts sold at \$4.0.@4.70; largely at \$4.65, and the best heavy at \$4.70@4.75, light sorts at \$4.75@4.00. Big heavy sorts, such as Dycrs-ville, Ia., shippers send, averaging 300 to 500 lbs, sold at \$4.70@4.75.

FINANCIAL.

New York, Feb. 11 .- [Special Telegram to THE BES. !- STOCKS-There was less animation at the opening of the stock market this morning. Prices were irregular, though generally higher, and the changes were for small fractions only. Grangers were weak and heavy, Chicago, Burlington & Quincy in particular showing marked weakness. The Boston houses were large sellers of this stock. The statement for December, showing a less in the revenue of over \$300,000, was the basis for a bear attack, and on the continued selling a decline of 2% per cent followed. The other western stocks sympathized in a measure, though there was no great pressure to sell. The specialties continued in their upward course, with Pullman in the lead, advancing 24 per cent. There was unusually good buying of Union Pacific by the brokers identified with Boston parties, Oregon Short Line stock was active and strong and advanced 25 per cent, the buying coming from the Villard party. Points to buy this stock, as well as a majority of this class of securities, are thick, and there is still a good deal of confidence in a further advance of stocks this week. The bulls argue that the increased volume of trading in stocks and bonds and the widening of speculation are the best signs of the times. If is said that the short interest in Northwestern has been increased considerably during the past few days. Conservative bull houses tell their customers that while there may be some further slight yielding in prices on severe bear pressure, they confidently expect to see a further net gain in prices this week. London cables say that the bears on American stocks in New York have been hard at work on the other side to bring about a decline on reports that the new railway association would never materialize, but this movement was not very successful. The Cammack party are known to be heavily short of the market. The Brice-Thomas party are talking very bullish on their favorte specialty-Richmond Terminal-and say t is a good purchase at the prevaiing prices. At noon the market was a fraction under the best prices of the morning, and the tone was a triffe easier. Later cables from London brought buying orders in St. Paul, Northern Pacific, and Lake Shore. Stocks in the lean crowd were in fair demand. Money was easy at 115002 per cent. The market was active and higher during the afternoon, Chicago, Burlington & Quincy being about the only exception. The Boston houses contin ued to sell this stock, and it was rumored that the company would soon issue a large amount of new stock. The rumor, lowever, lacked confirmation, but had its effect. The net decline for this stock is 1%, Cleveland, Columnus, Cincinnati & Indianapolis 36 per cent. The balance of the list shows net gains of 3,60214 per cent, Union Pacific showng 2%; Milwaukee, Lake Shore & Western preferred, 254; Pullman, 1%; St. Paul, 34, and Cotton Seed Oil I per cent. The total sales for the day amounted to 327,000 shares, including Chicago, Burlington & Quincy, 25,000; Richmond Terminal, 17,000; Reading, 10,000; Union Pacific, 58,000; St. Paul, 17,000; Northwestern, 11,000; Lackawanna, 13,000;

OMAHA LIVE STOCK.

Cattle. Monday, Feb. 11, 1889.

There was no very essential change in the market to-day as compared with Saturday.

The quality of the cattle was not very extra, ere was a little easier feeling discernable in the market for beef steers, while butchers' stock sold about steady. The packers paid mostly \$3.20@3.50 for corn-fed native steers, but one choice bunch, the best here, sold at \$3.80. Cows sold for the most part at \$2.00@2.50. Feeders were in good demand and quite a good many of the half fat cattle shipped in for beef were sold for feeders. As high as \$3.17½ was poid, and there were several trades at \$3.00 and \$3.10.

The market was fairly active, though slow to open, and 5c lower on all grades. Almost all the light hogs sold at \$4.50, and the bulk of the heavy and mixed hogs at \$4.45. An early clearance was made, all the hogs being sold at an early hour in the morning.

Sheep. The receipts were heavy and the market over supplied. A few head changed hands. Receipts.

Live Stock Notes. Hogs suffer a 5c decline. Too many sheep on sale. The week opens with moderate receipts. The best cattle here bring \$3.80. A weak feeling in beef cattle. Quality of the cattle not very good. Butchers stock commanded steady prices Some high priced feeders changed hands. Swift & Co. bought over half of all the

OMAHA WHOLESALE MARKETS. Fruits, Produce, Etc.

sheep sold here last week.
